Dominion Nur & Primary School
- (2018-2024)
Dominion Comprehensive College
- (2024-PRESENT)
SQI College of Ict

EXPERIENCE / PROJECT

SERVER CONFIGURATION

I configure a server to be a domain controller on local network, i add some features like DNS, DHCP, GPO POLICY. I also did some deployment which makes the project more exciting.....

GOOGLE KEEP

I made a replica of google keep where you will have to sign in before accessing the dashboard. On this dashboard, a user can add a note along with image. A user can edit and delete both the note and the image. Since a user is signed in, an account is already create. A user can also log-out of his/her account at anytime.
